

Faith and Settlement Partnerships

How can they work in your community?

Chris Brnjas

November 16, 2017

Making data accessible

We have all this information:

But how do we make it accessible?

How do we make it useful for settlement agencies?

How do we make it useful for faith groups?

How will it help immigrants & refugees?

A Conversation Guide: *Coming Soon!*

We are developing a Conversation Guide to give settlement agencies and faith groups tools to facilitate their own partnerships

Our hope is to provide resources for organizations to conduct their own training in an easy-to-learn and repeatable format.

Current Structure (*subject to change*)

3 Conversations

- Facilitated within a settlement agency
- Facilitated within a faith group
- Upon completion, bring both groups together for a guided relationship-building conversation

What would be useful for you?

- The Conversation Guide is still early enough in development that we are seeking input for what themes are important for your organization to discuss
- If you have things you hope to be included in the guide, talk to Chris or Hector!
