Pathways to Prosperity 2021 Virtual Workshop Series

In January 2021, we launched the new Pathways to Prosperity Virtual Workshop Series. Over the past three months, we have hosted more than 20 workshops. We hope that you have enjoyed the series so far, and we invite you to join us for the final set of workshops for this series.

Upcoming workshops are:

Tuesday, April 20 at 1:00 PM EDT

Customized Supports through Innovative Partnerships: A Multidisciplinary Approach to Building Resilient Newcomers

(Language: English)

Chair: Celestina Akinkunmi, Calgary Immigrant Women's Association

For 38+ years, CIWA has worked collaboratively across sectors to positively impact the lives of newcomers to Canada. Recently, the complex needs of new waves of immigrants have created the impetus for re-examining our service delivery practices and exploring innovative partnerships with new players at the table, in an effort to build inter-sectoral capacity through a multidisciplinary approach to serving vulnerable immigrants. This presentation will showcase our Health Literacy Partnership Project, a two year collaboration with MOSAIC Refugee Health Clinic that focuses on improving health literacy outcomes and reducing the barriers to accessing health services for low literacy adult newcomers.

Thursday, April 22 at 1:00 PM EDT

The Newcomer Insight Collaborative (NIC) – A Model for Collaborative COVID-19 Service Delivery Data Analysis

(Language: English)

Chair: Irmí Hutfless, Catholic Crosscultural Services

This workshop introduces the Newcomer Insight Collaborative (NIC), a model and platform for how organizations can work together to jointly make better use of their service delivery data for program planning and development. The Newcomer Insight Collaborative, a university-community partnership initiative, constitutes a model for tackling the challenges of data and research capacity in the non-profit sector. This workshop will explore the practical ways in which organizations can work together on data collaboratives, how we can compare pre and post COVID-19 service delivery and the importance of current and relevant data analysis during times of rapid change.

Tuesday, April 27 at 1:00 PM EDT

Towards Decolonized Practice in Settlement Work

(Language: English)

Chair: Lisa Rochman, NorQuest College

This webinar will explore how established practices in Canada's settlement sector can be reimagined through a decolonized lens. Professional "helpers" often occupy a role that is highly influential in the lives of newcomers to Canada, and service-providing agencies

routinely share knowledge that plays a vital role in their successful integration into Canadian society. This webinar thus will provide space for dialogue that examines how current approaches to newcomer support augment the settlement continuum in Canada, and how working towards a decolonized settlement work practice can help “unsettle” our conceptions of what it means to be “Canadian.”

Recordings from the workshop series are available on our virtual platform. For the full schedule, please [click here](#).

The workshop series is being offered at no cost to conference registrants and for a small fee to those who did not register for the Pathways to Prosperity 2020 National Conference. Registration for those who did not participate in the P2P 2020 National Conference but would like to attend the workshops is [available here](#).

We hope to see many of you at the Pathways to Prosperity Annual National Conference in November,
The Pathways to Prosperity Team
