### Integrated school services

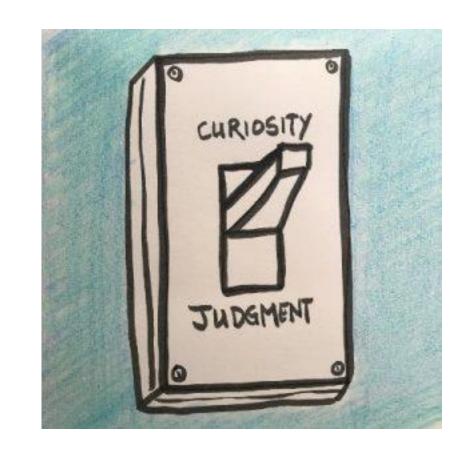

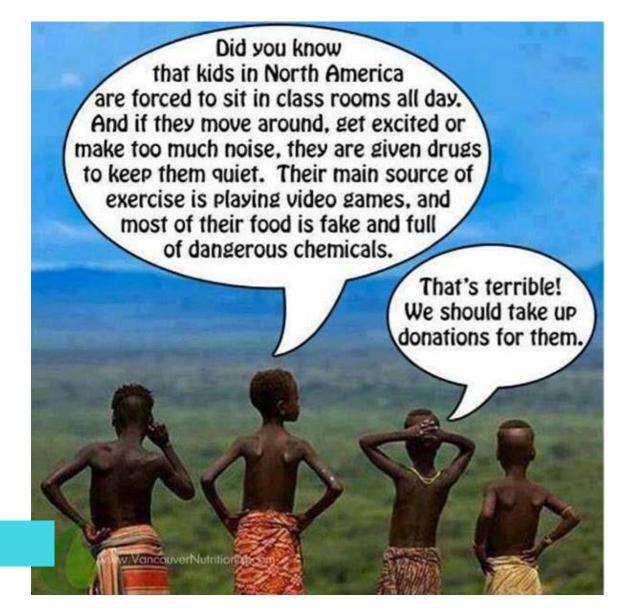

- Collaboration with school and board staff based on student and family needs
- Regular meetings with members of the school team
- Participation in the development of student learning and support plans
- School communicates special activities, camps and outings to the SWIS providers to better prepare the student and family.
- Accompaniment and support for parents through the various processes associated with the school environment.

## Promising practices

## THE CLIENT IS AT THE HEART OF OUR ACTIONS

- Permanence in schools
- Comprehensive, personalized client support
- Regular, individualized direct services tailored to client needs
- Access to the school board's technological tools and electronic platforms
- Increasing awareness of intercultural communication among school staff
- Collaboration and participation in student meetings
- Support for school staff to foster links between school and parents

Saviez-vous que les enfants en Amérique du Nord sont obligés de rester assis dans des salles de classe toute la journée. Et s'ils bougent, s'excitent ou font trop de bruit, on leur donne des médicaments pour les faire taire. Leur principale source d'exercice est de jouer à des jeux vidéo, et la plupart de leur nourriture est fausse et pleine de produits chimiques dangereux.

C'est terrible! nous devrions recueillir des dons pour eux.
