

Welcoming Communities Initiative to be one of five regional nodes in the Pathways to Prosperity Partnership

May 28, 2012

The Social Sciences and Humanities Research Council of Canada has awarded a 2012 Partnership Grant to Victoria Esses and a pan-Canadian team of thirteen co-investigators. The project – Pathways to Prosperity: New Policy Directions and Innovative Local Practices for Newcomer Integration and Attraction – will equip local institutions with the analytic capacity to address challenges related to migration, integration, local development, and economic and social sustainability. The project will also help federal, provincial, and municipal governments develop and implement policies for attracting, settling, and integrating newcomers in centres across Canada. The partnership will comprise a network of five regional nodes – Atlantic, Quebec, Ontario, Prairies, and British Columbia – with the Welcoming Communities Initiative serving as the project's Ontario node.
